

Poh Pei Fen

Finds joy in nursing paediatric patients and their families. I have been a registered nurse at KK Hospital, Children's Intensive Care since 2006. Enjoys a good peaceful shift of feeding, suctioning and diaper change while having no qualms over resuscitation or ECMO (extracorporeal membrane oxygenation) initiation. Currently, a member of the Nursing Research Council, KKH and a PhD researcher at the University of Plymouth.

Enjoy cracking my head over and learning in nursing...

- Family-centered care
- Induction of beginner nurses
- Effective resuscitation
- Nurse-led initiative

On the side, we can talk about mindfulness, yoga or even softball.
