

Profile: Joann Pang

The job(s) that keeps me going...

I started my role as Registered Nurse at National University Hospital since 1988. It was not a career of choice for me but I grew to love the profession after more than 28 years as a nurse. What I love most about my role is the ability to make a difference to every individual that crosses my path be it patients, or nurses that I work with on a day to day basis. Every smile that I could bring on to their face keeps me going in the profession. It is my dream to continue to pursue in what I believe in, developing and mentoring young nurses to their fullest potential, keeping their spirits high and enjoy their journey as a professional nurse.

What I enjoy cracking my head over and learning in nursing...

- Building a empowering and engaging working environment where nurses are part of the decision making process in the organization
- Leadership and Staff development
- Breaking norms in the healthcare
- Innovation and healthcare redesign

If I have time, I would spend some/more of it in...

- ***Crochet***
- ***Yoga***
- ***Mission work and contributing back to the community as volunteer***
